

ASLAN high-tack digital printing films

How to find the suitable film for my application?

Does it need to stick stronger than strong?
We recommend **MonsterTack ASLAN DFP 05** – monster-strong adhesive, can be applied from -10° C.

MonsterTack ASLAN DFP 05

Please note: This decision tree can only provide support and cannot reflect all individual circumstances. ASLAN recommends test applications in order to make a reliable decision.
